You are enthusiastically invited to join us for a very special gathering to witness the intelligent teachings of Philippe Karl who is one of today's most highly respected teachers in the true and correct classical techniques of dressage.

Throughout his career Philippe Karl has taken thousands of horses and riders to Grand Prix and the highest level of equitation. He creates an atmosphere of quiet, calm learning whereby "even ordinary horses" achieve top results. His most important principal is ***Respect to the Horse*** and he is famous for training the horse to be in soft communication with a light hand at all times.

He is in great demand and teaches clinics in Europe, USA and UK and we are very fortunate to have him visit Australia for the first time, whereby you will see him demonstrate gymnastic exercises to help you understand how to create lightness and balance with your horse in his ***philosophy of ease***.
